SKILLS

Languages: JavaScript, Python, Java, SQL, TypeScript

Frontend: React.js, Next.js, Redux.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

Machine Learning & Data Analytics: Supervised & Unsupervised Learning, NumPy, Pandas, Matplotlib, Scikit-learn

Tools & Platforms: Git, GitHub, Postman

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management System, Computer Networks

EDUCATION

Bachelor of Technology in Computer Science & Engineering (Data Science)

Aug 2023 – Jun 2027

Heritage Institute of Technology, Kolkata

CGPA: 9.57 / 10.0

ISC (Class XII)

2022 – 2023

St. Sebastian's School

Score: 95.5%

EXPERIENCE

NRXEN IT Solutions Pvt. Ltd.

Jun 2026 – Present

Full Stack Developer Intern

- Developing the **React.js frontend** for a web application connected to Wear Buddy smartwatches, enabling organizations to track employee health metrics, environmental data, live geolocation, geofence-triggered alerts, and generate health and sleep reports for all users.
- Collaborating with the team to align on data requirements, writing GraphQL queries to fetch and render real-time smartwatch data within the frontend interface.

PROJECTS

DevLoop – Developer Social Networking & Collaboration Platform | [GitHub](#) | [Live](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, OAuth 2.0, Tailwind CSS, Render

- Architected a scalable full-stack developer social platform using MVC-based REST API and React frontend, leveraging TanStack Query for server-state caching and optimistic UI updates.
- Engineered secure multi-provider auth with JWT and OAuth 2.0, GitHub-based project collaboration via GitHub REST API, and core networking features including posts, likes, comments, follows, and notifications.

Chatly – Real-Time Chat Application | [GitHub](#) | [Live](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, Tailwind CSS, Render

- Built a real-time chat application using Socket.io on a shared Express HTTP server with WebSocket messaging, online presence tracking, and efficient chat history retrieval via MongoDB.
- Implemented JWT auth across REST and WebSocket connections, Arcjet-based rate limiting, and one-to-one messaging with image uploads and transactional emails.

WanderLust – Property Rental & Listing Platform | [GitHub](#) | [Live](#)

Tech Stack: Node.js, Express.js, MongoDB, EJS, Bootstrap, Passport.js, Razorpay, Render

- Built a full-stack property rental platform using MVC architecture and RESTful APIs, enabling users to host properties and book stays.
- Integrated Passport.js auth, Razorpay payments with HMAC verification, and Mapbox with GeoJSON coordinates for interactive property location visualization.

ACHIEVEMENTS

- Solved **700+ DSA problems** across LeetCode and GeeksforGeeks, achieving a peak LeetCode **contest rating of 1718** over **42 contests**.
